

## **Sourcing from Conflict-Affected and High-Risk Areas Policy (CAHRAs)**

Bowins Silver Company Limited is importer and distributor of silver which purchased from vender or producer directly and eventually in supply chain. Bowins Company Limited has conducted due diligence on existing parties of mentioned raw material transportation to achieve the RJC. However, it has to be in boundary of OECD Due Diligence Guidance. Bowins Silver is a downstream raw material utilizer in supply chain.

Bowins Silver Company Limited has conducted the policy to communicate with all parties in supply chain for transporting raw materials that is manufactured or sourced from inspected sources independently to guarantee that they are without confliction and not from high-risk areas. The policy involves with Annex II being in OECD Guidance, RJC COP-7's procedures.

Furthermore, Bowins Silver Company Limited's contract partners which provide decoration components have to get certification of products or indicate providence that there is no confliction in raw material.

Bowins Silver Company Limited has accepted OECD' inspection guideline to be inspection boundary for responsibilities in supply chain of raw materials from high risk or conflicting areas. Bowins Silver Company Limited wish parties' sourcing being in line with OECD inspection model 5 steps if there is referred raw materials in products components from high-risk areas.

Company has equipped communication and training for the employees who are responsibility in sourcing raw material to be able to assort and manage raw materials distributor to be in line of the regulations.

This policy is effective on February 13, 2023
